EMPLOYMENT

Anthropic — Member of Technical Staff, Economics Research May 2026–Present
Research on the economic impacts of AI, including macroeconomic scenarios for transformative AI.

Meta — Research Scientist, Economics and Policy Research Oct 2023–May 2026

Stanford GSB — Postdoctoral Scholar, Golub Capital Social Impact Lab Jul 2023–Sep 2024

EDUCATION

Columbia University — Ph.D. Economics 2023
Dissertation: [Estimating Structural Models with Bayesian Econometrics](#)
Advisors: Andrea Prat, Stephen Hansen, David Blei

University of Edinburgh — MA (Hons) Economics and Mathematics, 1st in class 2017

PUBLICATIONS

[Estimating Nursing Home Quality with Selection](#) (with A. Olenski)
Review of Economics and Statistics, forthcoming

[The Persuasive Effect of Fox News: Noncompliance with Social Distancing During the COVID-19 Pandemic](#)
(with A. Simonov, J.P. Dubé, S. Biswas)
Marketing Science, 2022

WORKING PAPERS

[Economic Scenarios for Transformative AI](#) (with A. Korinek, C.I. Jones, T. Cotter, P. McCrory)
Anthropic Institute Working Paper 2026-02; CEPR Discussion Paper 21939, 2026

[Inference for Regression with Variables Generated by AI or Machine Learning](#) (with L. Battaglia, T. Christensen, S. Hansen)
arXiv:2402.15585, 2025

Two Way Fixed Effects Estimation with Selection: A Bayesian Approach, 2023

Combating Misinformation on Social Media (with R. Appel, S. Athey, D. Karlan, K. Koutout, M. Luca, U. Manjeer, N. Wernerfelt), in progress

OTHER

Awards: Vickrey Prize Runner-up, Columbia (2020) • Dean's Fellowship, Columbia (2017) • Class Prize, Edinburgh (2017)

Presentations: ASSA (2025, chair) • IIOC, ESEM (2024) • RES (2023) • Econometric Society Winter Meeting (2022)

Referee: *Economic Journal*, *Journal of Econometrics*, *Economics Letters*

Skills: Causal inference, structural estimation, Bayesian inference • Python (JAX, NumPyro, PyTorch), R, SQL, Stata
